## Specimen Label

# Turf Mark Blue WSP

## Blue Spray Indicator

### General Information

This carton contains 40 Turf Mark Blue WSPs. The protective outer bags are not water soluble, and should not be added to the spray tank. Protect the packets from all moisture prior to adding to the tank. Minimize handling to avoid breakage, and reseal the outer bags to protect unused packets from moisture.

### Mixing Instructions

1. Fill the spray tank 1/2 full of water/solution. For paddle agitation systems, paddles should at least be partially covered with water.
2. Activate agitation system.
3. Add required number of water soluble packets to obtain desired color concentration (see chart for recommended rates).
4. Continue filling the tank while the packets dissolve and Turf Mark Blue WSP disperses.
5. Prior to spraying, make sure Turf Mark Blue WSP has properly dispersed in the spray tank.

Target Area	Packets Added per 50 gal./200 liters
Greens	1
Fairway/Lawn	1-2
Roughs, etc.	1-2

**Note:** The time required to dissolve the packets and disperse Turf Mark Blue WSP varies depending upon water temperature and tank agitation. Allow at least 5 minutes for the packets to dissolve after being added to the spray solution.

This product is non-hazardous under OSHA standard 29 CFR 1910.1200 and SARA Title III. This product contains no chromium or other inert metals which are listed as hazards by California Proposition 65 or other regulatory guidelines.

Caution: Keep out of reach of children. Do not take internally. In case of eye contact, flush with large amounts of water and consult a physician. In case of ingestion, dilute with water or milk and consult a physician.

### EMERGENCY CONTACT CHEMTREC: 1-800-424-9300
